

# STEAM BOILER WATER TREATMENT TRAINING COURSE

Accredited Training for Safe & Efficient Boiler Operation

## ABOUT THE COURSE

- 2-day accredited training
- Covers all aspects of Steam Boiler Water Treatment
- Includes legislation and best practices as outlined in BG04 guidance
- Mixture of expert-led instruction and hands-on training

## WHO SHOULD ATTEND?

- Boiler owners, operators, engineers & managers
- Professionals responsible for water treatment, maintenance & compliance
- Those seeking to optimise system protection & efficiency

## WHAT YOU'LL GAIN

- **Expert knowledge** on correct selection, operation, maintenance & testing of water treatment programs
- **Hands-on training** to reinforce understanding of boiler chemistry & treatment
- **Enhanced compliance** with the Pressure Systems Safety Regulations (PSSR) & Provision & Use of Work Equipment Regulations (PUWER)
- **Accredited certification** by the Royal Society of Chemistry, delivering industry-recognised training

## WHY THIS COURSE?

- ✓ **REDUCE DOWNTIME & IMPROVE BOILER EFFICIENCY**
- ✓ **ENSURE STEAM PLANT PROTECTION & REGULATORY COMPLIANCE**
- ✓ **DELIVERED BY EXPERIENCED STEAM WATER TREATMENT PROFESSIONALS**

## COURSE DETAILS & REGISTRATION

Training Format:

- **Online training**
- **Face-to-face sessions** (subject to minimum numbers, with additional logistics and accommodation costs)

Contact us for course dates, pricing and registration details.

## WHAT OTHERS HAVE SAID ABOUT THE COURSE...

A really enjoyable and informative course with excellent practical exercises. It's provided me with a much stronger understanding of the importance of good water supply and treatment. Thanks to Wendy, DWB Scottish team and CEA.

**GORDON RUSSELL - COCHRAN SERVICES LTD**

The Steam Boiler Water Treatment Course exceeded my expectations. The technical content was interesting and user-friendly, and the practical sessions were full of meaningful, well-presented information. The delivery by DWB was exceptional - well-structured, knowledgeable, and easy to understand. I highly recommend this course for anyone looking to improve their understanding of steam boiler water treatment.

**PETER MOIR - BOILER OPERATOR, GSK**

I had the pleasure to attend one of the courses. Very practical and useful information from highly experienced water treatment experts. Thank you.

**RONNY WAGNER - MANAGING DIRECTOR, REICON**

Great course and great knowledgeable staff, thank you very much DWB.

**LEE FINCH - POWER PLANT OPERATOR, CCGT**

The course covered a lot of information, delivered in concise chunks that were easy to absorb. The structure was clear, logical and effective and the CEA has obviously put a lot of thought and expertise into designing it in line with BG04. The main benefits came from doing assignments, receiving individual feedback and interacting with the training provider.

The format gave me the confidence to implement new testing techniques and to understand the importance of water treatment as an engineer and not as a chemist. A must for all boiler Operators/Managers.

**STEVE BAGNALL - NHS ESTATES MANAGER**
