## EU CE PA STUDENT GRANT

The 'EU CE PA STUDENT GRANT' is intended to assist young people (*such as Students, Apprentices and Trainees*) involved in Pulp, Paper & Board Industries, the Fibrous Forest Products Sector and the emerging related Industry Sectors to develop a greater understanding of the Industry they have chosen for a career and to assist in the early development of a network of International Contacts. The intended purpose of the EU CE PA GRANT is to support attendance at Annual Meetings, Conferences, Fairs and Trade Shows organised by member associations represented in EU CE PA, although the grant may also be used for taking part in symposia and other events for the purpose of further training in the field of pulp and paper production and converting.

The EU CE PA GRANT will be a maximum of € 1,000, which will only be available to residents of EU CE PA Member Countries and not to institutions on behalf of individuals (except in the case of multiple applications). To further support the individual, EU CE PA Member Associations will normally waive attendance fees for a visiting EU CE PA Grant Recipient from another EU CE PA Member Country.

To qualify for the grant, the applicant should be a member of one of the associations represented in EU CE PA or at least have a close connection to one of them.

To apply for the EU CE PA GRANT the individual should initially contact the association of the country he or she comes from (see attached list) and the association will help to complete the application form.

If approved, whilst attending the event the application should obtain a "Proof of Attendance" signed by a Representative of the organiser of the event (normally at the registration desk). This should be forwarded to 'eucepa@yahoo.fr', again the country representative will be able to advise (please see attached list of EUCEPA Members for contact details).

The successful applicant will receive a maximum of € 1,000 per person in any calendar year, which will be paid (in arrears) upon production of appropriate proof of expenditure (Receipts, Boarding Passes etc) following the event. In the case of multiple applications to attend the same event (i.e Group Attendance), the EU CE PA Student Grant will be capped at € 2,000 per Country

Successful applicants will be required to prepare a short report describing their visit and may be asked to work with the editor of a National Associations Publication to produce a short article describing the event. Photographs of the event are especially welcomed.

In all cases, the awarding of any EU CE PA Grant Payment will be at the discretion of the EU CE PA Committee.

For further details contact your local Technical Association serving the Paper Industry or the EU CE PA Office (eucepa@yahoo.fr).
