

# **PAPERmatters!** **2018**

**25<sup>th</sup>/26<sup>th</sup> September / Lancaster University**

## **THE CONFERENCE:**

**PITA** has assembled a wide range of high-level presentations covering all aspects of the Papermaking Process, as well as venturing into the troubled world of Brexit and the potential impact on UK Papermaking Operations. Whether your interest lies in the UK's Proud Papermaking Heritage or the Low Carbon Future, if you are working with Nanocellulose or Composite Structures—this event has something for everybody

The full programme, starting at midday on Tuesday (25<sup>th</sup>) is available on the **PITA Website** ([www.pita.co.uk](http://www.pita.co.uk))

## **THE EXHIBITION:**

Alongside the Conference, we have an exhibition area supported by the leading suppliers to the Pulp, Paper & Board Sector, providing opportunities for informal discussions on the latest developments and technologies.

## **THE SOCIAL EVENT:**

Join us on Tuesday (25<sup>th</sup>) evening for a Barbeque, a drink and a chance to find out who is the best Papermaker: Mill Personnel, the Chemical Suppliers or the Engineers!!!

## **THE VISIT:**

To round off the event, PITA has arranged a visit to the nearby **Heysham Nuclear Power Station** on Wednesday afternoon. With increasing government pressure to move away from Fossil Fuels and limited Biomass Resources, Nuclear Power providing power to the All-Electric Paper Mill is being advocated as the way forward for Papermaking in the UK. To find out how a Nuclear Power Plant works—join us for this high power site visit!
