

# PITA Membership Benefits

The **Paper Industry Technical Association (PITA)** is an independent organisation which operates for the general benefit of its members – both individual and corporate – in promoting and communicating the technological aspects of paper manufacture and related Fibrous Forest Products. Formed in 1920, it has served the Industry – both manufacturers and allied trades – for almost a century.

## Individual Membership Benefits include:

The following publications, which are distributed free to all **PITA** members:

- **Paper Technology** - a prestigious international technical journal (3 issues pa);
- 
- **PITA Annual Review** - an invaluable source of contact information and data;
- 
- **PITA Membership Directory** - a unique source of contact details (exclusive to members);
- 
- **PITA Affairs** e-newsletter - containing time-sensitive information (at least 10 issues pa).
- **Papermaking!** - e-magazine containing a mix of managerial and technical articles (2 issues pa)

Preferential access to **PITA** technical meetings, visits and events.

Advantageous arrangements for all Training Seminars organised by **PITA**.

Access to a number of prestigious awards for which only members of **PITA** can be nominated.

Access to information on the International stage thanks to **PITA**'s membership of EUCEPA, the European Liaison Committee for Pulp and Paper Technical Associations which represents 14 national Associations from European countries. Outside of Europe, **PITA** maintains regular dialogue with its many sister organisations, including: APPITA (Australia); PAPTAC (Canada); TAPPI (USA) and TAPPSA (South Africa). In addition, **PITA** attends or is represented at several major pan-European Papermaking Exhibitions each year. Maintaining this level of contact throughout the world means **PITA** members obtain up to date information about all that is happening in the modern global Paper Industry.
